

RAINBOW SERIES

The remarkable appearance of the Rainbow Series is stylish and suitable for many home decors. The display tanks are made of ultra-white colorless glass and constructed with German Wacker Specialty silicons. This series is designed for advanced reefers in mind. The Display tank has a unique corner overflow box with two returns one above the other. Which when adjusted properly will ensure sufficient water movement. The sump comes with multiple water flow adjustments designs. All of our Aquariums come with multiple water flow adjustments designs. The Rainbow series is no different, we ensure a significantly lower noise level.

Features

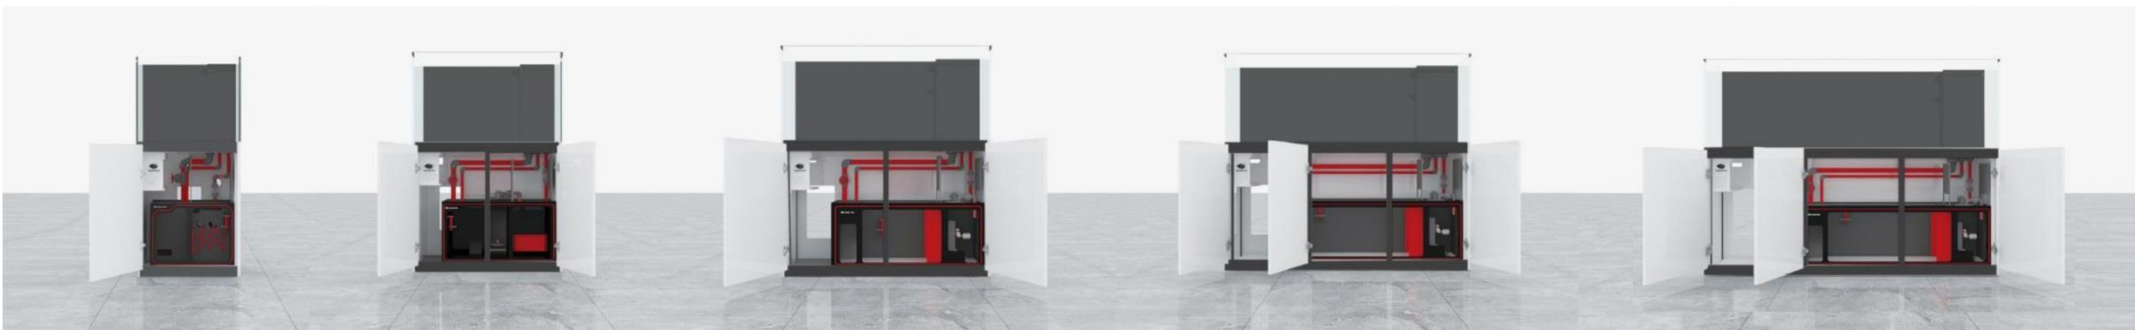

Our Acrylic PVC cabinets have gone through extensive water tests, the most extreme test up to date. It is an entire year of soaking the cabinets, even at this rate we didn't find any cracking or deformation.

Our level of product quality has earned us complete customer satisfaction and industry approval. It also ensures that our defective rate is among the lowest in the industry. Even with such a low rate of product issues, we realize prompt service is essential to our customers. We stand behind our 3-year warranty on all of our aquariums.
